DETAILED ACTION

This Office Action is in response to Amendment dated 10/20/2005.

Claims 8, and 23 are cancelled.

Claims 31, and 32 are newly added.

The Examiner attempted to contact, and left two messages to Applicant's Representative, Robert Popa (Reg. No. 43,010) at (323) 934-2300, in order to place the present application in a better form for allowance; however, the Examiner received no responses.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 31-32 are rejected under 35 U.S.C. 102(e) as being anticipated by Fraki et al. (hereinafter "Fraki") (US 2002/0161666 A1).

Regarding claim 31, a method of making available a data item associated with a real-world zone to mobile devices located in the zone, the method comprising:

- enabling the transfer of said data item from said second mobile device to other mobile devices in said zone (paragraph 0020).

Regarding claim 32, Fraki discloses an arrangement for making available a data item associated with a real-world zone to mobile devices located in the zone, comprising:

- transferring means for causing a first mobile device that holds said data item to transfer said data item to a second mobile device still in said zone upon said first mobile device exiting said zone (paragraph 0020);
- enabling means for enabling the transfer of said data item from said second mobile device to other mobile devices in said zone (paragraph 0020).

Allowable Subject Matter

3. **Claims 1-7, 9-22, and 24-30** are allowed as the independent claims 1, 14, 16, and 29 include allowable subject matter as noted in previous office action.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
